

2022 Asian Workshop on Molecular spectroscopy

--- Please share this circular with your colleagues who might be interested to join ---

The 6th Asian Workshop on Molecular Spectroscopy will be held on November 2-5, 2022 as partial online and partial offline event with local meeting venues in Sapporo, Taipei, Xi'an, and Ulsan. We hope to continue fostering cross-border communication and collaboration with this event. All participants, in particular young researchers, are encouraged to submit oral contributions. Please bring your newest research and use this opportunity to interact with fellow researchers from all over the world.

Website: <http://awoms.org>

Topics

- New spectroscopic techniques and instruments
- Precision measurements
- Application of spectroscopy to dynamics
- Spectroscopy in the gas phase
- Condensed phase spectroscopy
- Ultrafast spectroscopy
- Theory and analysis

Dates

November 2nd (Travel Day, Welcome and Registration)

November 3, 4 (Scientific Program)

November 5th (Closing and Travel Day)

Venue

Local meeting venues in Sapporo (Hokkaido University), Xi'an (Xi'an Jiaotong University), Taipei (IAMS), and Ulsan (UNIST). Online participation will be possible.

Cost

As customary for the AWMS, we aim to keep the cost low to encourage participation of young researchers. Registration fees for each venue will be posted at the meeting website.

Registration

Please register after September 12nd via the Conference Website.
